## INSTRUCTION

### SHAKE BEFORE USING

Ready to use products.

Spray C1.07 DAY onto the surface to clean and rub with sponge.

On clean and dry surfaces apply T3.11H spread it uniformly with a microfibre cloth making cross coats. Depending on the absorbment of the surface apply the second coat after 4-6 hours from the first. On low level absorbent surfaces it may result a light residue that will be easily eliminated rubbing it with a microfibre cloth or white pad like the scotch brite. Repeat the maintenance operation when the surface returns to absorb by getting wet.
