PROFESSIONAL ANTI-SLIP PRODUCTS

T3.SLIPPY

For granite surfaces

T3.SLIPPY MARMO

For marble surfaces

T3.SLIPPY GRES

For stoneware surfaces

FIELDS OF APPLICATION

Flooring, stairs, slabs, pool borders, shower trays

COVERAGE

Approximate: 1 liter covers 1 to 3 m²

ANTI-SLIP CERTIFICATION

To guarantee maximum transparency and standard compliance, our specialized technicians perform certified on-site instrumental measurements in accordance with the **B.C.R.A. method (British Ceramic Research Association)**.

Using the advanced **FSC 2011 computerized slip resistance tester**, we are fully equipped to:
· Measure the friction coefficient of the flooring, simulating real-world usage conditions (with rubber or leather heels, under both dry and wet conditions).
· Issue a documented, printed report certifying the initial surface values.
· Certify the final dynamic friction coefficient achieved upon completion of the treatment using T3.SLIPPY, T3.SLIPPY MARMO, or T3.SLIPPY GRES.

< **FSC 2011 computerized slip resistance tester**

CHARACTERISTICS

Acid-based formula

Creates controlled microporosity on the surface

Significantly reduces slip and fall accidents in both dry and wet conditions

Highly recommended for shopping malls, hospitals, corporate headquarters, offices, public and private swimming pools

INSTRUCTION FOR USE

SHAKE WELL BEFORE USE
Product is ready to use.
On clean and dry surfaces, pour the product evenly using a plastic watering can; allow it to act for 2–5 minutes.
Rinse thoroughly with plenty of water. Repeat the process to achieve an even higher anti-slip effect.

ADVANTAGES

Regulatory Compliance: Complies with Italian Legislative Decree D.Lgs. 81/2008 "Protection of health and safety in the workplace" and Ministerial Decree D.M. 236/1989 "Elimination of architectural barriers and safety requirements".

Maximum Safety: Drastically reduces the risk of accidents and accidental falls on both dry and wet flooring.

Legal Protection: Achieves a legally compliant coefficient of friction, offering robust coverage against potential legal liability for slip and fall injuries.
